

The Laurel Springs Concurrent Enrollment Authorization Form is a binding contract between the primary school and Laurel Springs School to ensure credits will be accepted by the primary school. This form must be completed before enrolling in the requested course(s). Either the principal or guidance counselor can authorize this approval for a student to enroll in academic courses with Laurel Springs School.

Please see page 2 for post secondary educational concerns.

Students concurrently enrolled with Laurel Springs can take UC approved courses. This is important for California resident students interested in applying as freshmen to the University of California or California State University System. Please review the information below about procedures for all online courses.

UC Approval for Online Courses

The UC faculty is in the process of establishing a policy to determine the acceptability of courses offered by online providers to meet the a-g requirements. Currently Laurel Springs offers courses that fall under two UC policies.

1. Laurel Springs is a UC Approved Online Course Provider. A list of approved courses can be found on the UC Doorways school list under Laurel Springs Online. The approval process is ongoing and not all submitted courses have yet been reviewed and approved.
2. Laurel Springs' courses not yet listed on the UC Doorways school list under Laurel Springs Online can be approved by the principal of Laurel Springs School as being comparable to classroom based courses. Principals of other schools may accept the decision of Laurel Springs about the comparability of courses or perform their own comparison.

Courses deemed comparable by Laurel Springs are designated as such in our school catalog.

Once the UC faculty has a chance to approve sufficient online course work, only approved courses appearing on the UC Doorways lists will be accepted. In the meantime, UC will recognize the completion of college preparatory online courses using the same practice it applies to other courses taken away from the high school site (e.g., language schools, summer extension or enrichment programs, study abroad programs, etc.).

Important Notice – Online Laboratory Science and Visual and Performing Arts:

- UC will not accept any online courses in the area of visual and performing arts (VPA).
- A-g credit for online laboratory science courses is granted only if the student passes the SAT subject test with a 540 or better (or) takes an AP Lab Science Exam and passes with a score of 3, 4 or 5.

In summary, if a student is planning to take any online courses, the principal by signing below, certifies that this online course is comparable to the college prep course offered at his or her school. This certification can reflect an agreement with the comparability established by the principal of Laurel Springs School or an independent comparison.
